Subject: Homeless Storage Lockers in Downtown LA?
Date: Wednesday, July 22, 2015 4:35:56 PM

Kent and Rena:

We are looking at storage lockers and as a mitigation for possible new ordinances that limit the quantity and time of objects on the sidewalk in Berkeley.

I see in a recent [Huffington Post article](#), that Downtown LA has a homeless lockers program. Do you know if that is the case? Has the program worked well? Is there someone we can talk to who administers the program about best practices with such program?

Thanks, John
